

The Risk Factory has a new and exciting programme.....

The Risk Factory, Scotland's only interactive safety centre is looking for volunteers to deliver it's new evening programme, designed around the Home and Road Safety badges awarded to the Cub Scouts (age range 8 – 10 ½) this exciting development will be launched in March.

If you have a couple of hours to spare in the evenings and are interested in volunteering twice a month this could be an ideal role for you. Full training on the programme is provided and the function of the guide is to lead small groups round lifelike scenarios, encouraging them to think about their own safety.

If you are interested and want to learn more about your role please call Angela Hall, Volunteer Co-ordinator on 0131 455 8932 or e-mail a.hall@edinburgh.gov.uk
