

ROAD SAFETY EDUCATION

Scottish Road Casualties 2008:

**272 deaths (that's 9 school
classes worth!)**

2,535 seriously injured

12,756 slightly injured

How can teachers assist in driving down these figures?

Work in partnership with Lothian and Borders Fire and Rescue Service utilising the specialist expertise and experience of operational Firefighters and ensuring that our road safety workshop is integral in your education plans each year. Make contact with us to discuss and arrange.

The Education Package "Make it Or Break It"

Minimum 50 minutes duration

Designed for young people embarking on or driving for the first time

Covers the consequences of unsafe and irresponsible driving

Interaction through discussion, syndicate work and presentation

Use of an actual crashed car

Links into the four capacities of the 3-18 Curriculum for Excellence

The Target Group

S6 predominantly but will also deliver to S5 or other if the risk dictates.
